24.08.29 Eight countries summation

8 countries summation:

1. How did your team group the 8 countries and why?
2. What did you learn about cause and effect that you did not understand before this project?
3. Explain the difference between causation and correlation
4. Which of the markers was tied closely to the economy and why?
5. What resources did you use that were successful, and which ones were not useful-why?
6. Some parts of your personal global footprint you might have control over: which might these be?
7. Which ones don't you have control over and why?
8. Imagine you are a new student, list the steps you would have them take to analyze the data

Bonus question: who was Agent P’s boss?
