Dream green home summary report

Dream green home summary report:

You will evaluate three projects and create 4 email messages:

One email to each project creator (10 points each), and a summary email to me, which will be worth 50 points

For each creator email, evaluate their project on these metrics:

1. how was energy harvested and stored?
2. how was water harvested and stored?
3. how was waste handled?
4. how did the design influence these?
5. what were the most inspiring parts of this for you?
6. what suggestions would you make to each creator to improve their design?

Summary report: email to me, 50 points total

include the text of each email you sent to each creator (10 points each)

Answer the following (20 points total):

1. in the projects you studied, what where the greatest environmental challenges and how did each respond to these?
2. From the e2 videos you watched, what elements did you see included in each design?
3. What elements of each home would you include in your own home as an adult in a few years?
4. If you moved into a home already built, what could you do to make it a greener place to live?
