elab.hpa.edu adds surfcams and earthquake maps

- Wonder how big the last quake was, and where was it located?
- How strong is the wind today, and will it ever end?
- I want to go surfing/paddling/swimming/fishing-what is the ocean like this minute?
- How much vog is in the air now, all over our island?
- What is the space weather like today and will it block my starlink or cel phones?

These and much more are all links from our resource and data server at elab.hpa.edu
Try out the links, and let us know if there are links you think might be valuable, so we can add them to the server.
