Grade 3 visits the elab!

Recently a hoard of third graders emerged from not one, but two buses to take over the elab in a flurry of energy! Their first visit was an introduction to the projects going on here, led by our wonderful independent science research team of Tiffany Ravaglia, Kelan Kennedy, Koi Wright, Nick Winterowd, Levi Furchner and Ezra Monello.

Each of our ISR students worked with three third graders (3 squared?) on their first visit, and on their second visit, these teams worked on a scavenger hunt (samples below).

The teams had a great time, finishing with M&Ms and hot cocoa (no sugar rush there), and are planning their next visit to learn how to fly FPV drones, use the 3D printer, fly our flight simulator, measure their brain waves, and try out the AI server, among other things.

If you are curious, here's a sample of the scavenger hunt questions:

1. Many dark rectangles collect sunlight and turn it into energy-where am I?
2. As the wind blows, I turn, and create energy, who am I?
3. When the sun hits me, I GET HOT! I make this into hot water-who am I?
4. Plants without soil-are you crazy? Who am I?
5. If you jump up and down near me, the earth will shake-where am I?
6. At night, I open like a clam and a telescope emerges-where am I?
7. I have a laser beam that can cut wood! Where am I?
8. I eat plastic and turn it into star wars figures-what am I?
9. Herobrine lives inside my square, white box-what am I?
10. If you put me on your head, you can read my thoughts (sort of). What am I?
11. If a tsunami is on the way, you will see it here-where am I?
12. The weather in space is interesting! Where can I see it?
13. So many computers thrown away, but we rescued them! Where?
14. I can flush two ways-what am I?
15. If you whisper, I can hear you far away-where am I?
16. I can show you where green trees are on our island-where am I?
17. If you look into me, you can see the top of Mauna Kea-where am I?
18. You can see the stars through me-where am I?

19. If you open me, wind goes up to the roof along my walls-where am I?
20. I can show you north, or how to sail a canoe across the ocean-where am I?
21. We won an award from Apple-can you find it?
22. There is another award on a piece of wood with 6 petals-where is it?
23. If you rode your bike to the elab, where would you park it?
24. There are huge tanks holding water, where is the biggest one?

• 25. There is a tree holding up a table-where is this?
