Lab 06a: making a sundial

You are going to create your own personal sundial so you are never late for class!
There is a pdf below with details on how to do this but first, you have to do some research:

1. using your phone (spyglass or compass) write down the exact latitude and longitude for our location
2. make sure your phone compass is set to true north, not map north, and locate north
3. if you are using they starwalk app on our iPads, look for Polaris, it should be in the same direction
4. research online how to create a sundial or read the pdf below

Download The Garden Sundial - Much More than an Ornament - J.Warren.pdf (application/pdf, 5.4 MB)
