Lab 37: Brain waves

- We have several brain wave headsets in the elab:
  - basic concentration units: sleep, awake, engaged, meditation
  - advanced 12 lead units: location in the brain, 4 waves (alpha, beta, gamma, delta)
  - super advanced: looks like swim caps, with holes, much more accurate
- Each of these uses either an app (first ones) or a dedicated program on a dedicated computer
- Play with each of these and note your discoveries
- go to emotiv.com and look up the software you will need to use the emotiv headsets
- contact Dr. Bill for setup help
